PACE Partners

PACE links General Motors, Autodesk, Hewlett Packard Enterprise, Oracle and Siemens PLM Software, along with their global operations, to support strategically selected academic institutions worldwide to develop the automotive product lifecycle management (PLM) team of the future. Since its inception in 1999, PACE, through its partner companies, contributors, and supporters, has contributed over $12 billion (USD) of in-kind donations of software, hardware, training, consulting services, and grants to the PACE Institutions around the world.

General Motors Company, founded in 1908, has its global headquarters in Detroit, Michigan. General Motors Co. produces vehicles in 30 countries, under the Chevrolet, Cadillac, Baojun, Buick, GMC, Holden, Isuzu, Jiefang, Opel, Vauxhall and Wuling Bands. GM has leadership positions in the world’s largest and fastest-growing automotive markets and is one of the founding partners for the PACE program, contributing various resources to the program.

Autodesk is a world leader in 3D design, engineering, and entertainment software, and provides design, visualization and simulation solutions to help customers solve their business challenges. GM uses products from Autodesk including Alias Automotive, Maya, Moldflow and other 2D/3D design and visualization technologies within their product development process. Autodesk participates in PACE to promote advancement in conceptual design, engineering and manufacturing.

Hewlett Packard Enterprise (HPE) creates new possibilities for technology to have a meaningful impact on people, businesses, governments and society in every region of the world. With the broadest technology portfolio spanning hardware, software and services, HP helps product-based customers ramp up faster, reduce risk and accelerate time to market. www.hp.com/go/plm

Oracle offers complete, integrated market-leading solutions that enable higher education and research institutions to adapt to the changing needs and demands of all their constituents and a choice of deployment models spanning multiple systems and business requirements. As a PACE partner, Oracle provides applications and technologies to PACE Institutions worldwide through the Oracle Academy to support innovation in education and research excellence.

Siemens PLM Software, is a leading global provider of product lifecycle management (PLM) software and services and a founding partner of PACE. Siemens PLM Software works collaboratively with companies to deliver open solutions to help them make smarter decisions that result in better products.
