General Motors Health & Industrial Hygiene Policy

Company policy is to conduct its business in a manner that works to protect the safety of employees, contractors, customers, and the public. The Company strives to prevent incidents, injuries, and occupational illnesses through the active participation of every employee. The Company is committed to continuous improvement efforts to identify and eliminate or manage Safety and Industrial Hygiene (S&IH) risks associated with its activities. We are committed to GM’s Purpose and Values and to the Global S&IH vision: Live Values that Return People Home Safely. Every Person. Every Site. Every Day.

Emergency Communications System

- In case of an emergency, an announcement will be broadcast over the P.A. system.
- The evacuation signal is a three-pulse temporal pattern followed by a message. “Your attention please. Please evacuate the building immediately. Do not run. Do not use the elevators. Please proceed to the nearest exit.”
- The message will be repeated 3 times.
- A second announcement will be made over the Emergency Communications System advising employees when it is safe to return to their work areas.
